

Dramatherapy feedback
Fairfield House Residential Home

02/06/10

Dear Rachel

I am sorry this has taken me a while to send but the feedback for the dramatherapy has been really good.

Client Feedback

Mrs A has said that although she was not able to attend them all she thoroughly enjoyed those she did come to. She has said it helped her to settle into her new home and enabled her to become firm friends with Mrs B who also attended.

Mrs B has admitted that the therapy has helped her to manage her anxiety in much better ways. She feels calmer and is more positive in general.

Mrs C also enjoyed the sessions and has said she will miss them.

Staff Feedback

From our angle, we have noticed a definite improvement in Mrs B, she is certainly less needy and her daughter feels she is less demanding of her too, so success!

Mrs C is difficult to gauge as she was quite new, so we are not sure what impact this has had but she seems very settled and is not anxious about anything.

Mrs A has also benefited, due to her young years she often feels depressed about being in a care home but your visits have given her a lot of pleasure.

I hope we will see you again over the winter months, keep in touch

Best Wishes,

Alison Parry
